****IF IT IS NOT ON THIS LIST, PLEASE DO NOT BUY IT**

We keep this supply list as small as possible with the desire that you try to purchase **all** items on the list and of high quality so they will last the year. This is especially true of the 5 subject notebooks and the mouse/headphones. These are items we use in both classes daily that make it easier on the kids to use their chromebooks and we have limited supply of working ones. It is easier on your student to just have their own that they don't have to share.
